## Profile

An IT graduate from the University of Cape Coast with hands-on experience building responsive web applications using React, Next.js, and modern JavaScript. Skilled in creating user-focused interfaces and currently expanding into backend development using Node.js, Express, MongoDB, and PostgreSQL. Strong problem-solving and debugging skills focused on building complete, realworld applications.

## Education

B.Sc. Information Technology

University of Cape Coast | Expected Graduation: 2026

## Skills

Frontend: HTML, CSS, JavaScript, React, Next.js, Tailwind CSS

Backend: Node.js, Express, REST APIs

Databases: MongoDB, PostgreSQL

Tools: Git, GitHub, VS Code, Postman

Other: Problem-solving, debugging, responsive design

## Projects

### 1. RESTAURANT WEBSITE

- Built a fully responsive restaurant website using React, HTML, and CSS
- Implemented reusable components and optimized layout for mobile and desktop
- Focused on accessibility and clean UI design

### 2. JOT

- Built a full-stack notes and memories application using Next.js and MongoDB with frontend and backend in a single codebase
- Implemented features for creating and managing notes with photo uploads
- Developed authentication, API routes, and database integration for persistent user data- JotFul is a simple space designed to jot thoughts, capture moments, and remember what matters through notes and photos

### 3. E-COMMERCE STORE

- A modern e-commerce platform built with Next.js, Express, Prisma, and PostgreSQL,
- focused on buying and selling clothing and fashion products, with dedicated experiences for buyers, sellers, and admins.
- Currently under active development.

## **CERTIFICATES**

- Responsive Web Design – freeCodeCamp (2024)
- JavaScript Algorithms and Data Structures – freeCodeCamp (2024)
- Front End Development Libraries – freeCodeCamp (2024)

## **Interests**

Web development, problem-solving, UI/UX design, exploring new technologies
